ABSTRACT

The present publication is the first modern catalogue of the liverworts and hornworts of French Polynesia and accepts 161 species of liverworts and 5 species of hornworts. In addition, 40 species are doubtful records of French Polynesia and 45 species are excluded. The checklist is mainly based on a compilation of published records; a few unpublished new records are included as well. The region has been explored very unevenly and liverwort and hornwort records are available for only ten islands of French Polynesia. Several islands of considerable surface area and elevation such as Fatu Hiva, Tahuata, Ua Pou and Ua Huka in the Marquesas, and Huahine and Tahaa in the Society Islands remain completely unexplored. In the Tuamotu Archipelago, only one atoll of the 60 has been surveyed (Makemo) and the number of reports for Gambier islands is quite low. The hepatic flora of French Polynesia appears to be relatively poor in species as compared to other Pacific island groups, such as the Fiji Islands (301 spp.) and New Caledonia (475 spp.) which are large continental islands (over 18 000 km²). Nevertheless, their floras show strong similarities at the family level. One species, *Treubia tahitensis* (Nadeaud) Besch., is only known from French Polynesia and may be considered endemic. The lack of endemic hepatic species in French Polynesia may be explained by the relatively small size, rather low elevation, low habitat diversity and recent geological age of the islands. It supports the notion that oceanic barriers do not operate as a major impediment to bryophyte dispersal.

RÉSUMÉ

Catalogue des hépatiques et anthocérotes de la Polynésie française.

Le présent article est le premier catalogue des hépatiques et anthocérotes de la Polynésie française; il compte 161 espèces d'hépatiques et 5 espèces d'anthocérotes. De plus, 40 espèces sont considérées comme douteuses et 45 espèces sont exclues. Ce catalogue repose essentiellement sur une compilation des données publiées et quelques nouveautés inédites sont également incluses. La région a été explorée de façon très inégale et les données relatives aux hépatiques et aux anthocérotes ne sont disponibles que pour dix îles de Polynésie française. Plusieurs îles de surface et d'altitude conséquentes, comme Fatu Hiva, Tahuata, Ua Pou et Ua Huka aux Marquises et Bora-Bora, Tahaa et Huahine dans les îles de la Société, restent totalement inexplorées. Dans l'archipel des Tuamotou seul l'atoll Makemo, sur les 60 que compte l'archipel, a été exploré et pour les Gambier le nombre de données restent très réduites. La flore hépatique de Polynésie française semble être relativement pauvre en espèces par rapport à d'autres groupes insulaires du Pacifique, comme les îles Fidji (301 spp.) et la Nouvelle-Calédonie (475 spp.), mais ces îles sont nettement plus vastes (plus de 18 000 km²). Néanmoins, leurs flores présentent de fortes similitudes au niveau des familles. Une seule espèce, *Treubia tahitensis* (Nadeaud) Besch., n'est connue que de la Polynésie française et peut être considérée comme endémique. L'absence d'espèce d'hépatique endémique en Polynésie française peut s'expliquer par la taille relativement petite des îles, souvent de basse altitude induisant un manque de diversité en habitats, associé à un âge géologique assez récent pour les grandes îles comme Tahiti. De ce fait ces critères géomorphologiques et écologiques soutiennent l'idée que les barrières océaniques ne fonctionnent pas comme un obstacle majeur à la dispersion des bryophytes.

INTRODUCTION

The present paper is part of a recent series of catalogues and evaluations of the bryophyte diversity of the French overseas territories, e.g., Réunion Island (Ah-Peng & Bardat 2010; Ah-Peng *et al.* 2010), French Guiana (e.g., Gradstein & Ilkiu-Borges 2009), French West Indies (Lavocat-Bernard & Schäfer-Verwimp 2011) and New Caledonia (Thouvenot & Bardat 2010, 2013; Thouvenot *et al.* 2011). Since the French political reform of 2003, these territories are called “overseas collectivities” (COM) and are provided with a degree of autonomy within the French Republic under article 74 of the Constitution.

The overseas collectivity of French Polynesia covers a vast oceanic territory of over 5.5 million km² in the southern Pacific Ocean and comprises 118 islands and islets arranged in four coral or volcanic archipelagos: the Society islands, the Marquesas islands, the Tuamotu islands (including the Gambier islands) and the Austral (sometimes called Tubuai) islands (Table 1). These islands cover a land surface of 3521 km² for a population of 270 000 inhabitants (2011 census). The four main islands, covering about two third of the total land surface, are Tahiti (1045 km²) and Raiatea (171 km²) in the Society, and Nuku Hiva (340 km²) and Hiva Oa (315 km²) in the Marquesas. The highest elevation in French Polynesia is Mt Orohena on Tahiti, 2241 m. This is the highest point in the South Pacific.

Data on the bryophyte diversity of French Polynesia, in particular liverworts and hornworts, are rather limited (Table 1). The first enumeration of the species of liverworts and hornworts of French Polynesia was published by the French botanist Edéstan Jardin enumerating 11 taxa from the Marquesas in

his 1857 paper *Essai sur l'histoire naturelle de l'archipel de Mendana ou des Marquises*. This paper seems to have been largely overlooked by subsequent authors. Another early botanist was Dr Jean Nadeaud, a surgeon of the French Navy who resided in Tahiti during 1856-1859 and again in 1896. In his important paper of 1873, *Énumération des plantes indigènes de l'île de Tahiti*, Nadeaud reported 40 liverworts and 2 hornworts from Tahiti. A second enumeration was published by Bescherelle (1898) who listed 117 species, most of them identified by F. Stephani. Almost all Bescherelle's records were from Tahiti, and four species were recorded from the Marquesas (island of Nuka Hiva). After Bescherelle's publication, no list has been published dealing specifically with French Polynesia. A synthesis of the records from French Polynesia up to 1983 appeared in the catalogue of Polynesia by Miller *et al.* (1983). Due to the format of the latter catalogue it is difficult to find the sources of several reports. Numerous new records were published by Hürlimann (1960, 1974, 1976, 1978, 1983, 1985, 1987, 1989, 1991, 1993, 1995, 1998) in his important series of papers of on the liverworts of the South Pacific.

As shown in Table 1, liverwort and hornwort records are available for twelve islands of French Polynesia. Several islands of relatively large surface area (>35km²) and elevation (over 600 m), such as Fatu Hiva, Tahuata, Ua Pou, Ua Huka in the Marquesas Islands and Huahine, Maupiti and Tahaa in the Society Islands, remain completely unexplored and need attention.

The geological age of the main volcanic islands is quite variable. The archipelago of Tuamotu is oldest (between 9.5 and 60 Myr) while the Society Islands are significantly more recent (between 1.4 and 4.3 Myr), with Tahiti being the youngest island (0.6-1.3 Myr). The geological age of the

Marquesas is about the same as that of the Society Islands (respectively between 1.3 and 5.5 and 0.03 and 6.6 Myr) (Meyer & Salvat 2009).

METHODS AND PRESENTATION

The present checklist is based on a compilation of all published records of species and infraspecific taxa of liverworts and hornworts from French Polynesia. In addition, some unpublished new records from Moorea based on the recent collections of E. Kraichak and others (UC; det. S. R. Gradstein), are included. Important sources of information were the library of the Natural History Museum of Paris and the ELPT database (von Konrat *et al.* 2010). The format of the checklist follows Söderström *et al.* (2010). Primary references (providing details on specimens and/or exact localities) are in bold face, secondary ones (lacking details) are in normal font. Nomenclature follows Söderström *et al.* (2016) with a few later updates (Catalogue of Life; Söderström *et al.* 2019)

and author abbreviations are according to the IPNI database. Taxa doubtfully present in French Polynesia, rejected records and synonyms are listed separately. The list of synonyms only contains names used for French Polynesia.

Following von Konrat *et al.* (2010) and Söderström *et al.* (2016), four confidence levels are used for taxa, as follows: ? = problem with the taxon name (invalid, illegitimate, orphaned); * = serious doubts about the value of the taxon; ** = probably a good taxon (default value); *** = accepted, a good taxon as currently understood.

RESULTS AND DISCUSSION

This checklist accepts 161 species of liverworts (in 54 genera and 28 families) and 5 species of hornworts (3 genera, 2 families) for French Polynesia. The hepatic flora of French Polynesia is relatively poor as compared to other Pacific island groups, such as the Fiji Islands with 301 species (Söderström *et al.* 2011; Pócs *et al.* 2011; Pócs 2012a) and

New Caledonia with 475 species (Thouvenot *et al.* 2011; Thouvenot & Bardat 2013). Nevertheless, the hepatic floras of these three archipelagos show strong similarities at the family level and the proportional number of species per family. Of 44 families recorded from the three areas, 30 occur in French Polynesia, 32 in the Fiji islands and 39 in New Caledonia (data not shown). Moreover, 25 families common to the three archipelagos contain 97% of the species of Fiji and about 94% of the species of French Polynesia and New Caledonia. Families found in New Caledonia but not in Fiji and French Polynesia include Adelanthaceae, Balantiopsidaceae, Cephaloziellaceae, Fossombroniaceae, Goebeliellaceae and Haplomitriaceae, totalling 12 species. Cyathodiaceae and Targioniaceae (totalling two species) are found only in French Polynesia, and Pseudolepicoleaceae (2 species) are only recorded from the Fiji islands and not in French Polynesia and New Caledonia.

The relative specific richness of the various common families is rather similar in French Polynesia, Fiji and New Caledonia with a strong proportion of Lejeuneaceae, followed by Radulaceae, Plagiochilaceae, Lepidoziaceae and Frullaniaceae. These five families represent the main part of the liverworts and hornworts for the archipelagos, accounting for about 74% of the species of Fiji, 65% of those of French Polynesia and 64% of those of New Caledonia. A major difference between the three areas is the strong presence of Lophocoleaceae in New Caledonia.

ENDEMISM

One species, *Treubia tahitensis* (Nadeaud) Besch., is only known from French Polynesia and may be considered endemic. This species is only known from a single, old collection from the 19th century and nothing is known about its morphological variation. Bescherelle (1898) suggested that *T. tahitensis* might be identical to *T. insignis* K.I. Goebel but Schuster & Scott (1969) saw enough differences to maintain it as a separate species. It should be noted that Miller *et al.* (1983) cited two species of *Treubia* for Tahiti, *T. insignis* and *T. tahitensis*, although only one collection for this genus is known from the island. Such errors are unfortunately not uncommon in the latter work and shows that one should be cautious accepting records based only on Miller *et al.* (1983).

This lack of endemic hepatic species in French Polynesia may be explained by the relatively small size of the islands, their relatively low elevation (Table 1) and lack of habitat diversity except for Tahiti. Moreover, bryophytes are highly mobile organisms which may colonize islands and archipelagos at a rapid pace provided that suitable ecological conditions are met (Patiño *et al.* 2013). Oceanic barriers do not operate as a major impediment for migration, as is supported by the substantial allele sharing between islands and continents (e.g., Vanderpoorten *et al.* 2008; Hutsemékers *et al.* 2011) and the low levels of endemism on islands as compared with seed plants (e.g., Gradstein & Weber 1982; Vanderpoorten *et al.* 2011; Patiño & Vanderpoorten 2018). The lack of endemism among the liverworts and hornworts of French Polynesia agrees with this notion.

Genus *Spruceanthus* Verd.

****S. olivaceus* (Hook.f. et Taylor) X.Q.Shi, R.L.Zhu & Gradst.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987 as *Archilejeunea olivacea*. — Raiatea. Mitten 1873 as *Phragmicoma olivacea*, Bescherelle 1898 as *Lejeunea olivacea*, Miller et al. 1983 as *Lejeunea olivacea*, *Phragmicoma olivacea* and *Archilejeunea olivacea*.

****S. planiusculus* (Mitt.) X.Q.Shi, R.L.Zhu & Gradst.

REPORTS. — SOCIETY ISLANDS. Moorea. New [leg. E. Kraichak 131 p., det. S.R. Gradstein (UC)], Miller et al. 1983 as *Spruceanthus marianus*. — Tahiti. Type of *Archilejeunea caramuensis* var. *denticulata*, Bonner 1962b as *Archilejeunea caramuensis* var. *denticulata*, Miller et al. 1983 as *Spruceanthus marianus*, Hürlimann 1991 as *Archilejeunea planiuscula*.

****S. polymorphus* (Sande Lac.) Verd.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Moorea. New to Moorea [leg. E. Kraichak 145, 276, 368, 457, det. S.R. Gradstein (UC)]. — Tahiti. Type of *Brachiolejeunea apiculata*, Original material of *Lejeunea apiculata*, Bescherelle 1898 as *Lejeunea apiculata*, Verdoorn 1934a as *Thysananthus polymorphus*, 1934b, Hattori 1952a, Mizutani 1961, 1977, Pócs et al. 1967, Miller et al. 1983 also as *Lejeunea apiculata*, Zhu & So 1999 as *Archilejeunea polymorpha*, Zhang 2003 as *Archilejeunea polymorpha*.

Genus *Symphyogyna* Nees & Mont.

****S. undulata* Colenso

REPORTS. — SOCIETY ISLANDS. Enroth 1991. — Tahiti. Grolle & Piippo 1986.

Genus *Symphyogynopsis* Grolle

****S. gottscheana* (Mont. & Nees) Grolle

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987 as *Symphyogyna filicum*, *Symphyogyna exincrassata* and *Symphyogyna vitiensis*. — Tahiti. Type of *Symphyogyna exincrassata*, *Symphyogyna exincrassata* and *Symphyogyna filicum*, Nadeaud 1873 as *Symphyogyna filicum*, Bescherelle 1898 as *Symphyogyna vitiensis* and *Symphyogyna exincrassata*, Stephani 1900a as *Symphyogyna exincrassata*, Herzog 1926 as *Symphyogyna exincrassata*, Hürlimann 1968 as *Symphyogyna filicum*, Miller et al. 1983 as *Symphyogyna exincrassata* and *Symphyogyna filicum*, Grolle & Piippo 1986 as *Symphyogynopsis filicum*, Grolle 1987, Geissler & Bischler 1990 as *Symphyogyna exincrassata* and *Symphyogyna exincrassata*, Furuki 2002 as *Symphyogynopsis filicum*, Chantanaorrapint et al. 2003, 2004 both as *Symphyogynopsis filicum*.

Genus *Targionia* L.

****T. hypophylla* L.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Hürlimann 1960, Miller et al. 1983.

Genus *Thysananthus* Lindenb.

****T. frauenfeldii* Reichenhardt

REPORTS. — SOCIETY ISLANDS. Ångström 1875 as *Phragmicoma gibbosa*, Whittier & Whittier 1987 as *Mastigolejeunea frauenfeldii*. — Moorea. Sukkharak & Gradstein 2014a, 2014b as *Mastigolejeunea frauenfeldii*. — Tahiti. Type and Type of *Phragmicoma gibbosa*, Reichenhardt 1866, 1869, 1870, Ångström 1873 as *Phragmicoma gibbosa*, Stephani 1890a, 1897 as *Brachiolejeunea frauenfeldii*, Bescherelle 1898 as *Lejeunea frauenfeldii*, Verdoorn 1934a as *Mastigolejeunea frauenfeldii*, Bonner 1963a as *Brachiolejeunea frauenfeldii*, 1965 as *Mastigolejeunea frauenfeldii*, Miller et al. 1983 as *Lejeunea frauenfeldii*, *Mastigolejeunea frauenfeldii*, *Phragmicoma gibbosa*, *Brachiolejeunea frauenfeldii* and *Thysananthus frauenfeldii*, Geissler & Bischler 1989 as *Phragmicoma gibbosa*, 1990, Sukkharak & Gradstein 2014a, 2014b both as *Mastigolejeunea frauenfeldii*, Sukkharak 2015. TUBUAI ISLANDS. Rapa-Iti (Rapa I). Sukkharak & Gradstein 2014b as *Mastigolejeunea frauenfeldii*.

****T. humilis* (Gottsche) Sukkharak & Gradst.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987 as *Mastigolejeunea humilis*. — Moorea. Verdoorn 1934b as *Mastigolejeunea humilis*, Miller et al. 1983 as *Lejeunea virens*, as *Mastigolejeunea humilis*, *Mastigolejeunea virens* and *Thysananthus virens*, Sukkharak & Gradstein 2014b as *Mastigolejeunea humilis*. — Tahiti. Type of *Lejeunea tahitica*, Bescherelle 1898 as *Lejeunea tahitica*, Verdoorn 1934a, 1934b both as *Mastigolejeunea humilis*, Bischler 1965 as *Mastigolejeunea humilis*, Tixier 1966, 1970a, 1973b, 1975 all as *Mastigolejeunea humilis*, Mizutani 1977 as *Mastigolejeunea humilis*, Miller et al. 1983 as *Mastigolejeunea humilis*, *Phragmicoma versicolor*, *Phragmicoma taitica*, *Phragmicoma polyantha*, *Mastigolejeunea virens*, *Thysananthus virens*, *Lejeunea virens*, *Lejeunea tahitica*, *Mastigolejeunea taitica*, *Lejeunea taitica* and *Archilejeunea tahitensis*, Awasthi & Udar 1984 as *Mastigolejeunea humilis*, Bapna & Kachroo 2000b as *Mastigolejeunea humilis* var. *humilis*. TUBUAI ISLANDS. Rapa-Iti (Rapa I). Verdoorn 1937 as *Mastigolejeunea humilis*.

****T. ligulatus* (Lehm. & Lindenb.) Sukkharak & Gradst.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987 as *Mastigolejeunea ligulata*. — Moorea. Sukkharak & Gradstein 2014b as *Mastigolejeunea ligulata*. — Tahiti. Type of *Mastigolejeunea novo-hibernica*, Mitten 1873 as *Phragmicoma ligulata*, Bescherelle 1898 as *Lejeunea ligulata*, Schiffner 1898 as *Mastigolejeunea ligulata*, Stephani 1912a as *Mastigolejeunea novo-hibernica*, Swanson & Miller 1969 as *Mastigolejeunea ligulata*, Miller et al. 1983 as *Mastigolejeunea ligulata*, *Lejeunea ligulate* and *Phragmicoma ligulata*, Mizutani 1986 as *Mastigolejeunea ligulata*, Sukkharak & Gradstein 2014b as *Mastigolejeunea ligulata*, Singh et al. 2016b as *Mastigolejeunea ligulata*.

****T. repletus* (Taylor) Sukkharak & Gradst.

REPORTS. — SOCIETY ISLANDS. Tahiti. Sukkharak & Gradstein 2014b as *Mastigolejeunea repleta*.

****T. retusus* (Reinw., Blume & Nees) B.M.Thiers & Gradst.

REPORTS. — SOCIETY ISLANDS. Tahiti. Bischler 1965 as *Ptychanthus striatus* var. *retusus*, Miller *et al.* 1983 as *Ptychanthus striatus* var. *retusus*.

****T. virens* Ångstr.

REPORTS. — SOCIETY ISLANDS. Ångström 1875. — Moorea. Type, New [leg. *E. Kraichak* 285. 420, det. S.R. Gradstein (UC)], Ångström 1873, Bescherelle 1898 as *Lejeunea virens*, Thiers & Gradstein 1989 as *Mastigolejeunea virens*, Geissler & Bischler 1990, Gradstein *et al.* 2002 as *Mastigolejeunea virens*, Haerida *et al.* 2010 as *Mastigolejeunea virens*, Sukkharak 2011, 2015, Sukkharak & Gradstein 2014b as *Mastigolejeunea virens*, Wang *et al.* 2016 as *Mastigolejeunea virens*. — Tahiti. Syntype and Type of *Archilejeunea tahitensis*, *Mastigolejeunea taitica* and *Phragmicoma taitica*, Ångström 1873, Stephani 1890a as *Phragmicoma taitica*, 1896 as *Mastigolejeunea taitica*, 1911a as *Archilejeunea tahitensis*, 1912a also as *Mastigolejeunea virens*, Herzog 1926, Bonner 1962b as *Archilejeunea tahitensis*, Mizutani 1986 as *Mastigolejeunea virens*, Hürlimann 1989 as *Mastigolejeunea virens*, Singh *et al.* 2016b as *Mastigolejeunea virens*.

TUAMOTU ISLANDS. Gambier. Sukkharak & Gradstein 2014b as *Mastigolejeunea virens*.

Genus *Treubia* K.I.Goebel

****T. tahitensis* (Nadeaud) Besch.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Type of *Gottschea tahitensis*, Nadeaud 1873 as *Gottschea tahitensis*, Bescherelle 1898, Bonner 1966 as *Gottschea tahitensis*, Schuster & Scott 1969, Miller *et al.* 1983 also as *Gottschea tahitensis*, Schuster & Konstantinova 1995, Pfeiffer *et al.* 2002.

Genus *Trichocolea* Dumort.

****T. pluma* (Reinw., Blume & Nees) Mont.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Moorea. New [leg. *B.E. Carter* 3910, det. S.R. Gradstein (UC)], Miller *et al.* 1983, Katagiri *et al.* 2013. — Tahiti. Bescherelle 1898, Hürlimann 1983, Miller *et al.* 1983, Ludwiczuk & Asakawa 2010, Katagiri *et al.* 2013.

****T. tomentella* (Ehrh.) Dumort.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Montagne 1848a, 1848b, Frye & Clark 1943, Le Gallo 1951, Schuster 1966, Miller *et al.* 1983.

INVALID NAMES

A number of taxa are published from French Polynesia under invalid names. We have not been able to trace any specimen that the following reports may be based on and, thus, not been able to refer them to any valid taxon.

Genus *Alobiella* (Spruce) Schiffn.

?*A. grandistipula* Herzog *nom. inval.*

REPORTS. — SOCIETY ISLANDS. Tahiti. Type, Herzog 1926.

NOTE

We do not know where to refer Herzog's invalidly described *Alobiella grandistipula*. It is only mentioned in a paragraph on floristic elements in the Pacific without any further comments.

Genus *Aneura* Dumort.

?*A. pacifica* Steph. ex Besch. *nom. inval.*

REPORTS. — SOCIETY ISLANDS. Miller *et al.* 1983, Whittier & Whittier 1987. — Tahiti. Type, Bescherelle 1898.

NOTE

The invalid *Aneura pacifica* from Tahiti is probably a *Riccardia* sp. (Miller *et al.* 1983) but the identity is still to be determined.

Genus *Bryopteris* (Nees) Lindenb.

?*B. rigida* Herzog *nom. inval.*

REPORTS. — SOCIETY ISLANDS. Tahiti. Type, Herzog 1926.

NOTE

We do not know where to refer Herzog's invalidly described *Bryopteris rigida*. It is only mentioned in a paragraph on floristic elements in the Pacific without any further comments.

Genus *Lejeunea* Lib.

?*L. translucida* Gottsche *nom. inval.*

REPORTS. — SOCIETY ISLANDS. Tahiti. Original material, Gottsche 1882, Geissler & Bischler 1987.

NOTE

The identity of the invalidly described *Lejeunea translucida* (leg. *Vesco*) is unknown to us.

Genus *Lepidozia* (Dumort.) Dumort.

?*L. contigua* Steph. *nom. inval.*

REPORTS. — SOCIETY ISLANDS. Tahiti. Miller *et al.* 1983.

NOTE

Miller *et al.* (1983) did not know where to refer the invalidly published *Lepidozia contigua*.

Genus *Mastigophora* Nees

?*M. longifissa* Steph. ex Besch. *nom. inval.*

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Original material, Bescherelle 1898.

NOTE

Miller *et al.* 1983 did not know where to refer the invalidly published *Mastigophora longifissa*.

Genus *Odontoschisma* (Dumort.) Dumort.

?*O. tahitense* Steph. ex Besch. *nom. inval.*

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Original material, Bescherelle 1898, Miller *et al.* 1983, Geissler & Bischler 1989, So 2004, Gradstein & Ilkiu-Borges 2015.

NOTE

Miller *et al.* (1983) and So (2004) did not know where to refer *Odontoschisma tahitense* from Tahiti. The original material could not be located (Gradstein & Ilkiu-Borges 2015).

Genus *Plagiochila* (Dumort.) Dumort.

?*P. lepinei* Steph. ex Besch. *nom. inval.*

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Original material, Bescherelle 1898, Bonner 1962a, Miller *et al.* 1983, Geissler & Bischler 1989, So 2001c.

NOTE

The invalidly described *Plagiochila lepinei* seems only to be known from the original material and none seems to have studied it since its description.

Genus *Trichocolea* Dumort.

?*T. tomentella* var. *javanica-pluma* Nadeaud

REPORTS. — SOCIETY ISLANDS. Tahiti. Type, Nadeaud 1873.

TAXA REPORTED BUT DOUBTFULLY OCCURRING IN FRENCH POLYNESIA

ANTHOCEROTOPHYTA Rothm.

ex Stotler & Crand.-Stotl.

Genus *Phaeoceros* Prosk.

****P. laevis* (L.) Prosk.

REPORTS. — SOCIETY ISLANDS. Guillemin 1836 as *Anthoceros laevis*, Whittier & Whittier 1987. — Tahiti. Montagne 1848a, 1848b both as *Anthoceros laevis*, Bescherelle 1898 as *Anthoceros laevis*, Frye & Clark 1947 as *Anthoceros laevis*, Miller *et al.* 1983 as *Phaeoceros laevis* subsp. *laevis*, Schuster 1992b as *Anthoceros laevis*.

NOTE

All reports of *Phaeoceros laevis* from the Pacific are s. lat. They probably represent the more widespread *Phaeoceros carolinianus* or some related species.

MARCHANTIOPHYTA Stotler & Crand.-Stotl.

Genus *Aneura* Dumort.

****A. pinguis* (L.) Dumort.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Nadeaud 1873, Miller *et al.* 1983.

NOTE

Aneura pinguis is a species complex (Long *et al.* unpubl.) and reports from the Pacific almost certainly belong to some other (possibly undescribed) species.

Genus *Bazzania* Gray

****B. adnexa* (Lehm. & Lindenb.) Trevis.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Montagne 1848a, 1848b both as *Mastigobryum novae-hollandiae*, Miller *et al.* 1983 also as *Bazzania novae-hollandiae* and *Mastigobryum novae-hollandiae*.

NOTE

There is only one old report of *Bazzania adnexa* from the Pacific, and in absence of recent reports the identity must be questioned.

****B. monilineris* (Lehm. & Lindenb.) Trevis.

REPORTS. — SOCIETY ISLANDS. Miller *et al.* 1983 as *Mastigobryum monilineris*, Whittier & Whittier 1987. — Tahiti. Nadeaud 1873 as *Mastigobryum monilineris*, Miller *et al.* 1983 [with a '?'], Engel & Glenn 2008b.

NOTE

There is only one old report of *Bazzania monilinervis* from the Pacific, and in absence of recent reports the identity must be questioned.

****B. praerupta* (Reinw., Blume & Nees) Trevis.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987 as *Bazzania cordistipula*. — Tahiti. Nadeaud 1873 as *Mastigobryum cordistipulum*, Miller *et al.* 1983 as *Bazzania cordistipula*.

NOTE

There is only one old report of *Bazzania praerupta* from French Polynesia. It's occurrence there is possible as it occurs on Hawaii, but is in need of confirmation.

**B. sumbavensis* (Gottsche ex Steph.) Steph.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Tixier 1974, Miller *et al.* 1983.

NOTE

Bazzania sumbavensis is possibly conspecific with *Bazzania japonica* (Söderström *et al.* 2010). We are not aware of any first hand report from French Polynesia.

Genus *Chiastocaulon* Carl

****C. dendroides* (Nees) Carl

REPORTS. — SOCIETY ISLANDS. Tahiti. Inoue 1982 as *Plagi-ochila dendroides*, Renner *et al.* 2016, Shu *et al.* 2017.

NOTE

We are not aware of any first hand report of *Chiastocaulon dendroides* from French Polynesia.

Genus *Cololejeunea* (Spruce) Steph.

***C. cordiflora* Steph.

REPORTS. — SOCIETY ISLANDS. Hürlimann 1987, Pócs 2012b.

NOTE

We are not aware of any first hand report of *Cololejeunea cordiflora* from French Polynesia.

****C. verrucosa* Steph.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987, Pócs & Ninh 2012, Pócs 2012b (with a '?'). — Tahiti. Miller *et al.* 1983.

NOTE

We are not aware of any first hand report of *Cololejeunea verrucosa* from French Polynesia. Pócs (2012b) questioned its occurrence there.

Genus *Colura* (Dumort.) Dumort.

****C. apiculata* (Schiffn.) Steph.

REPORTS. — SOCIETY ISLANDS. Tahiti. Miller *et al.* 1983 as *Colurolejeunea apiculata*.

NOTE

We are not aware of any first hand report of *Colura apiculata* from the Society Islands.

Genus *Drepanolejeunea* (Spruce) Steph.

**D. hampeana* Steph.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Bonner 1965, Miller *et al.* 1983.

NOTE

We are not aware of any first hand report of *Drepanolejeunea hampeana* from the Pacific.

***D. laevis* (Mitt.) Steph.

REPORTS. — SOCIETY ISLANDS. Miller *et al.* 1983, Whittier & Whittier 1987.

NOTE

Drepanolejeunea laevis is only known from the type collected on "South Sea Islands" which sometimes has been interpreted as the Society Islands.

Genus *Frullania* Raddi

****F. hypoleuca* Nees

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Miller *et al.* 1983 also as *Frullania explicata* [Miller *et al.* 1983 got the synonymy wrong], von Konrat & Braggins 2001.

NOTE

We are not aware of any first hand report of *Frullania hypoleuca* from French Polynesia.

****F. meyeniana* Lindenb.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Pócs *et al.* 1967, Bapna & Kachroo 2000b.

NOTE

We are not aware of any first hand report of *Frullania meyeniana* from French Polynesia. Hattori & Lin (1985) questioned its occurrence there.

**— var. *meyeniana*

REPORTS. — SOCIETY ISLANDS. Hattori & Lin 1985. — Tahiti. Miller *et al.* 1983.

****F. neurota* Taylor

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Miller *et al.* 1983.

NOTE

We are not aware of any first hand report of *Frullania neurota* from French Polynesia.

Genus *Lobatiriccardia* (Mizut. & S.Hatt.) Furuki

****L. alterniloba* (Hook.f. & Taylor) Furuki

REPORTS. — MARQUESAS. Jardin 1857 as *Pellia carnosa*.

NOTE

Lobatiriccardia alterniloba is not recorded from SE Pacific after 1857 and the correctness of the report is questioned.

Genus *Lepidolejeunea* R.M.Schust.

****L. bidentula* (Steph.) R.M.Schust.

REPORTS. — SOCIETY ISLANDS. Tahiti. Miller *et al.* 1983 as *Ceratolejeunea auriculata*.

NOTE

We are not aware of any first hand report of *Lepidolejeunea bidentula* from the Society Islands.

Genus *Metzgeria* Raddi

***M. scobina* Mitt.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Beschereille 1898, Kuwahara 1960 (doubting earlier reports), Miller *et al.* 1983 (with a '?').

NOTE

Metzgeria scobina is a taxon from SE Asia and Australia. Kuwahara (1960) doubted the report from Tahiti.

Genus *Pallavicinia* Gray

***P. cylindrica* (Austin) A.Evans

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Miller *et al.* 1983 also as *Pallavicinia simplex*.

NOTE

We are not aware of any first hand report from French Polynesia of *Pallavicinia cylindrica*.

****P. levieri* Schiffn.

REPORTS. — SOCIETY ISLANDS. Tahiti. Syntype of *Blytia levieri*, Stephani 1900a, Campbell 1915 also as *Blytia levieri*, Miller *et al.* 1983 as *Blytia levieri*.

NOTE

The identity of the syntype of *Pallavicinia levieri* from Tahiti is unclear. We are not aware of any further report from French Polynesia.

Genus *Plagiochila* (Dumort.) Dumort.

****P. blepharophora* (Nees) Lindenb.

REPORTS. — SOCIETY ISLANDS. Tahiti. Nadeaud 1873.

NOTE

Plagiochila blepharophora is widespread in SE Asia but its occurrence on Tahiti was questioned by Miller *et al.* (1983) as a possible confusion with *Plagiochila vitiensis*.

****P. deflexa* Mont. & Gottsche

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Dugas 1928, 1929 both as *Plagiochila caespitosa*, Miller *et al.* 1983 also as *Plagiochila cespitans* and *Plagiochila caespitosa*.

NOTE

Plagiochila deflexa is a New World taxon extending its occurrence to Hawaii. It was rejected from Samoa as *Plagiochila bialata* by Inoue (1981). The identity of the reports from Tahiti is unknown.

****P. sciophila* Nees

REPORTS. — SOCIETY ISLANDS. Miller *et al.* 1983 as *Plagiochila acanthophylla*. — Tahiti. Beschereille 1898 as *Plagiochila orientalis*, Bonner 1962a as *Plagiochila acanthophylla*, Pócs 1971 as *Plagiochila acanthophylla*, Miller *et al.* 1983 as *Plagiochila orientalis* (*sensu* Steph. 1914).

NOTE

Plagiochila sciophila is widespread in the Pacific but the occurrence on Tahiti was questioned by Miller *et al.* (1983).

****P. trabeculata* Steph.

REPORTS. — SOCIETY ISLANDS. Tahiti. Dugas 1928, 1929.

NOTE

The report of *Plagiochila trabeculata* from Tahiti is the only one from the Pacific and its correctness should be questioned.

Genus *Podomitrium* Mitt.

****P. malaccense* (Steph.) Campb.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Miller *et al.* 1983.

NOTE

Podomitrium malaccensis is only reported second hand from Tahiti, and only with doubts.

Genus *Ptychanthus* Nees

****P. striatus* (Lehm. & Lindenb.) Nees

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Miller *et al.* 1983.

NOTE

We are not aware of any first hand report of *Ptychanthus striatus* from French Polynesia.

Genus *Radula* Dumort.

****R. campanigera* Mont.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Stephani 1910, Schuster 1980b, Miller *et al.* 1983, Bapna & Kachroo 2000b, Singh Deo & Singh 2017, Singh & Dash 2018.

NOTE

We are not aware of any first hand report of *Radula campanigera* from French Polynesia in spite of the genus having been well studied by Castle and Yamada in the past.

***— subsp. *campanigera*

REPORTS. — SOCIETY ISLANDS. — Tahiti. Yamada 1979.

****R. novae-hollandiae* Hampe

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Bescherelle 1898, Miller *et al.* 1983 (with a '?').

NOTE

Radula novae-hollandiae is a taxon from Australia and New Caledonia. The old reports from Tahiti are doubtful.

***R. nymannii* Steph.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987, Pócs & Podani 2015. — Tahiti. Swanson & Miller 1969, Yamada 1979, Miller *et al.* 1983, Yamada & Piippo 1989, Promma & Chantanaorrapint 2015, Singh *et al.* 2016a, b, Singh & Dash 2017, Pócs & Kovács 2019.

NOTE

We are not aware of any first hand report of *Radula nymannii* from the French Polynesia.

***R. tjibodensis* K.I.Goebel

REPORTS. — SOCIETY ISLANDS. Tahiti. Pócs *et al.* 1967. (with a "?").

NOTE

Radula tjibodensis was reported from Tahiti only with a ?.

****R. ventricosa* Steph.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987 as *Radula subpallens*. — Tahiti. Miller *et al.* 1983 as *Radula subpallens*.

NOTE

We are not aware of any first hand report of *Radula ventricosa* from the Pacific.

Genus *Riccardia* Gray

****R. alba* (Colenso) E.A.Br.

REPORTS. — SOCIETY ISLANDS. Tahiti. Hürlimann 1976 as *Riccardia samoana*, Brown & Braggins 1989.

NOTE

We are not aware of any first hand report of *Riccardia alba* from French Polynesia.

****R. multifida* (L.) Gray

REPORTS. — SOCIETY ISLANDS. Guillemin 1836 as *Jungermannia multifida*, Whittier & Whittier 1987. — Tahiti. Nadeaud 1873 as *Aneura multifida*, Bescherelle 1898 as *Aneura multifida*, Miller *et al.* 1983 also as *Jungermannia multifida* (with a '?').

NOTE

Miller *et al.* (1983) questioned the identity of the old reports of *Riccardia multifida* from Tahiti.

Genus *Riccia* L.

****R. crystallina* L.

REPORTS. — SOCIETY ISLANDS. Tahiti. Nadeaud 1864 as *Riccia ochrospora*.

NOTE

There is only one old record of *Riccia crystallina* from the Pacific, and the identity should be questioned.

Genus *Sandeothallus* R.M.Schust

***S. radiculosus* (Schiffn.) R.M.Schust.

REPORTS. — SOCIETY ISLANDS. Schuster 1983 as *Calycularia radiculosa*.

NOTE

We are not aware of any first hand report of *Sandeothallus radiculosus* from French Polynesia.

Genus *Schizophyllopsis* Váňa & L.Söderstr.

****S. bidens* (Reinw., Blume & Nees) Váňa & L.Söderstr.

REPORTS. — SOCIETY ISLANDS. Tahiti. Hattori 1971 as *Anastrophyllum bidens* (with a '?').

NOTE

Schizophyllopsis bidens has only been reported from French Polynesia with a question mark.

Genus *Solenostoma* Mitt.

****S. truncatum* (Nees) R.M.Schust. ex Váňa & D.G.Long

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987 as *Jungermannia polyrhiza*. — Tahiti. Nadeaud 1873 as *Jungermannia polyrhiza*, Váňa 1975a, 1991a both as *Jungermannia truncata* (with doubt), Miller *et al.* 1983 as *Jungermannia polyrhiza*, Váňa & Piippo 1989a as *Jungermannia truncata*, Piippo *et al.* 1998 as *Jungermannia truncata*, Váňa *et al.* 2005 as *Jungermannia truncata*.

NOTE

Váňa (1975a) assumed that the report of *Solenostoma truncatum* from Tahiti was *Jungermannia micrantha* but he could not study it.

Genus *Thysananthus* Lindenb.

****T. comosus* Lindenb.

REPORTS. — MARQUESAS. — Jardin 1857.

NOTE

Thysananthus comosus is never recorded from French Polynesia after Jardin and is closest mentioned (without any specification) from Samoa by Pócs *et al.* (1967; no further report) and the Caroline Islands (Sukkharak 2015). Thus, we regard the occurrence as doubtful.

****T. fruticosus* (Lindenb. & Gottsche) Schiffn.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Miller *et al.* 1983 also as *Lejeunea filicina* (*sensu* Gottsche, Lindenb. & Nees).

NOTE

We are not aware of any first hand report of *Thysananthus fruticosus* from French Polynesia although it has been confirmed as close as from the Cook Islands.

Genus *Treubia* K.I.Goebel

****T. insignis* K.I.Goebel

REPORTS. — SOCIETY ISLANDS. Tahiti. Stephani 1900b, Campbell 1915, Rodway 1916, Pearson 1922, Herzog 1926.

NOTE

Miller *et al.* (1983) questioned the old reports of *Treubia insignis* from Tahiti.

**— subsp. *insignis*

REPORTS. — SOCIETY ISLANDS. Tahiti. Miller *et al.* 1983 (with a '?').

TAXA REPORTED BUT REJECTED FROM FRENCH POLYNESIA

ANTHOCEROTOPHYTA Rothm.
ex Stotler & Crand.-Stotl.
Genus *Anthoceros* L.

**A. javanicoides* H.A.Mill.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987 .

NOTE

Anthoceros javanicoides was only mentioned by Whittier & Whittier (1987) but it can not be found in the reference they refer to, and thus rejected as an error.

Genus *Dendroceros* Nees

***D. crassinervis* (Nees) Gottsche

REPORTS. — MARQUESAS. Jardin 1857 as *Anthoceros crassinervis*.

NOTE

Dendroceros crassinervis is a Neotropical taxon with some doubtful reports from India and a report from Samoa that is rejected as *Dendroceros granulatus* by Hasegawa (1982). We thus reject the old report from the Marquesas as something else.

****D. crispus* (Sw.) Nees

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Montagne 1848a, 1848b, Miller *et al.* 1983.

NOTE

Dendroceros crispus is a neotropical species and older reports are certainly identification errors.

MARCHANTIOPHYTA Stotler & Crand.-Stotl.

Genus *Acrolejeunea* (Spruce) Schiffn.

****A. fertilis* (Reinw., Blume & Nees) Schiffn.

REPORTS. — SOCIETY ISLANDS. Tahiti. Verdoorn 1934a, 1934b as *Ptychocoleus fertilis*.

NOTE

Gradstein (1975) rejected the report by Verdoorn (1934b) as *Acrolejeunea aulacophora* or *Acrolejeunea securifolia*.

****A. infusata* (Mitt.) Jian Wang bis & Gradst.

REPORTS. — SOCIETY ISLANDS. Tahiti. Bapna & Kachroo 2000b as *Trocholejeunea infusata*.

NOTE

We are not aware of any first hand report of *Acrolejeunea infusata* and regard the report as an error.

****A. sandwicensis* (Gottsche) Steph.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987 as *Trocholejeunea sandwicensis*, Zhang 2003 as *Trocholejeunea sandwicensis*.

— Tahiti. Bescherele 1898 as *Lejeunea 'sandwicensis'*, Verdoorn 1934a, 1934b both as *Brachiolejeunea sandwicensis*, Hattori 1952a as *Brachiolejeunea sandwicensis*, Mizutani 1961 as *Brachiolejeunea sandwicensis*, Tixier 1970a as *Brachiolejeunea sandwicensis*, Pócs 1971 as *Brachiolejeunea sandwicensis*, Mizutani 1978 as *Trocholejeunea sandwicensis*, Miller *et al.* 1983 as *Trocholejeunea sandwicensis*, Bapna & Kachroo 2000b as *Trocholejeunea sandwicensis*.

NOTE

Sun *et al.* (2018) rejected earlier reports of *Acrolejeunea sandwicensis* from French Polynesia as *Acrolejeunea securifolia* subsp. *pallida*.

Genus *Bryopteris* (Nees) Lindenb.

****B. filicina* (Sw.) Nees

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987 as *Bryopteris fruticulosa*. — Tahiti. Reichardt 1870, Stephani 1890a (rejecting report as mislabelled), Bescherele 1898 as *Lejeunea filicina*, Evans 1907 (doubting the origin of the specimen), Pagán 1939b, Stotler & Crandall-Stotler 1974 as *Bryopteris fruticulosa* subsp. *monica*, Miller *et al.* 1983 as *Bryopteris fruticulosa*.

NOTE

Bryopteris filicina is a Neotropical taxon and the old reports from Tahiti are to be rejected as other species or possibly mislabelled.

Genus *Cheilolejeunea* (Spruce) Steph.

****C. clausa* (Nees & Mont.) R.M.Schust.

REPORTS. — SOCIETY ISLANDS. Tahiti. Reichardt 1870 as *Lejeunea opaca*, Bescherele 1898 as *Lejeunea opaca*.

NOTE

Cheilolejeunea clausa is a Neotropical taxon and the old reports from Tahiti were rejected as *Cheilolejeunea cookiensis* by Miller *et al.* (1983).

****C. mariana* (Gottsche) B.M.Thiers & Gradst.

REPORTS. — SOCIETY ISLANDS. Moorea. Miller *et al.* 1983 as *Spruceanthus marianus*. — Tahiti. Verdoorn 1934a, 1934b both as *Archilejeunea mariana*, Hattori 1951 as *Archilejeunea mariana*, Swanson & Miller 1969 as *Archilejeunea mariana*, Tixier 1972 as *Archilejeunea mariana*, Mizutani 1977 as *Spruceanthus marianus*, Miller *et al.* 1983 as *Archilejeunea caramuensis* var. *denticulata* and *Spruceanthus marianus*.

NOTE

Cheilolejeunea mariana has generally been confused with *Spruceanthus planiusculus* (Thiers & Gradstein 1989) and should be rejected from the Pacific except the Marianas.

Genus *Cololejeunea* (Spruce) Steph.

****C. cardiocarpa* (Mont.) A.Evans

REPORTS. — SOCIETY ISLANDS. Tahiti. Hürlimann 1987, Fulford & Sharp 1990 as *Leptocolea cardiocarpa*, Pócs *et al.* 2011, Müller 2015.

NOTE

Pócs (2012a) rejected all reports of *Cololejeunea cardiocarpa* from Tahiti as *Cololejeunea pacifica*.

****C. haskarliana* (Lehm.) Schiffn.

REPORTS. — SOCIETY ISLANDS. Tahiti. Bescherelle 1898 as *Lejeunea haskarliana*.

NOTE

The report is not based on any *Cololejeunea* as Bescherelle place it in subg. “*Acrolejeunea*”.

Genus *Cyathodium* Kunze

****C. cavernarum* Kunze

REPORTS. — SOCIETY ISLANDS. Tahiti. Nadeaud 1873.

NOTE

Cyathodium cavernarum has only been reported once from the Pacific and was rejected as *C. foetidissimum* in Miller *et al.* (1983).

Genus *Drepanolejeunea* (Spruce) Steph.

****D. inchoata* (C.F.W.Meissn.) Steph.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Reichardt 1870 as *Lejeunea inchoata*, Bescherelle 1898 as *Lejeunea inchoata*, Miller *et al.* 1983 also as *Lejeunea inchoata*.

NOTE

Drepanolejeunea inchoata is a Neotropical species and reports from Tahiti probably belong to *Drepanolejeunea thwaitesiana*.

Genus *Frullania* Raddi

****F. atrata* (Sw.) Nees ex Mont.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Nadeaud 1873, Miller *et al.* 1983 (with a ‘?’).

NOTE

Frullania atrata is a Neotropical species and the old record by Nadeaud should be rejected.

***F. pancheri* Gottsche

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Miller *et al.* 1983 (with a ‘?’).

NOTE

Frullania pancheri is only known from New Caledonia (Thouvenot *et al.* 2011) and the unsupported reports from Tahiti must be rejected.

***F. pusilla* Mitt.

REPORTS. — SOCIETY ISLANDS. Hattori 1986a [rejecting earlier records as *Fnadeaudii*]. — Tahiti. Stephani 1910 as *Frullania bescherellei*, Pearson 1922 as *Frullania bescherellei*, Bonner 1965 as *Frullania bescherellei*, Hattori 1981 as *Frullania bescherellei* (with a ‘?’).

NOTE

Hattori (1986a) rejected reports of *Frullania pusilla* from Tahiti as *Frullania nadeaudii*.

Genus *Gymnomitrium* Corda

****G. concinatum* (Lightf.) Corda

REPORTS. — SOCIETY ISLANDS. Tahiti. Stephani 1886.

NOTE

Stephani’s (1886) report must be an error for some locality in Alaska.

Genus *Heteroscyphus* Schiffn.

****H. contortuplicatus* (Nees & Mont.) Grolle

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987 as *Chiloscyphus contortuplicatus*. — Tahiti. Montagne 1856 as *Geocalyx contortuplicatus* (with a ‘?’), Miller *et al.* 1983 as *Geocalyx contortuplicatus*.

NOTE

Heteroscyphus contortuplicatus is a Neotropical species.

Genus *Lepicolea* Dumort.

****L. ochroleuca* (Spreng.) Spruce

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Montagne 1848a, 1848b both as *Sendtnera ochroleuca*, Nadeaud 1873 as *Sendtnera ochroleuca*, Schiffner 1898, Miller *et al.* 1983 (with a ‘?’).

NOTE

Lepicolea ochroleuca is a Neotropical-African taxon and the old reports from Tahiti must be rejected.

Genus *Lepidozia* (Dumort.) Dumort.**L. massartiana* Schiffn. ex Steph.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Syntype, Stephani 1909a, Kitagawa 1973, Miller *et al.* 1983, Geissler & Bischler 1985.

NOTE

The syntype of *Lepidozia massartiana* from Tahiti belongs to *Telaranea cuneifolia* (Engel & Smith Merrill 2004).

Genus *Marchantia* L.****M. chenopoda* L.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Montagne 1848a, 1848b, Miller *et al.* 1983 (with a '?'), Bischler 1984.

NOTE

Marchantia chenopoda is a Neotropical taxon and the reports from Tahiti were rejected as *Marchantia hexaptera* by Bischler-Causse (1989).

****M. emarginata* Reinw., Blume & Nees subsp. *emarginata*

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987 as *Marchantia amboinensis*. — Moorea. Ångström 1873 as *Marchantia amboinensis*, Bescherelle 1898 as *Marchantia amboinensis*, Miller *et al.* 1983 as *Marchantia amboinensis*. — Tahiti. Montagne 1845 as *Marchantia amboinensis*, Gottsche *et al.* 1846 as *Marchantia amboinensis*, Montagne 1856 as *Marchantia amboinensis*, Jardin 1860 as *Marchantia amboinensis*, Ångström 1873 as *Marchantia amboinensis*, Bescherelle 1898 as *Marchantia amboinensis*, Schiffner 1898 as *Marchantia amboinensis*, Miller *et al.* 1983 as *Marchantia amboinensis*.

NOTE

Marchantia emarginata was rejected from French Polynesia by Bischler-Causse (1989).

****M. paleacea* Bertol.

REPORTS. — SOCIETY ISLANDS. Miller *et al.* 1983 as *Marchantia nitida*, Whittier & Whittier 1987. — Tahiti. Hattori 1966, 1968b (with a '?'), Miller *et al.* 1983 (with a '?'), Bischler 1984, Bapna & Kachroo 2000b, Alam & Srivastava 2009.

NOTE

The reports of *Marchantia paleacea* from Tahiti were rejected as *Marchantia hexaptera* by Bischler-Causse (1989).

***— subsp. *paleacea*REPORTS. — MARQUESAS. Jardin 1857 as *Marchantia tholophora*.

SOCIETY ISLANDS. Tahiti. Mitten 1873 as *Marchantia nitida*, Bescherelle 1898 as *Marchantia nitida*, Schiffner 1898 as *Marchantia nitida*, Evans 1917 as *Marchantia nitida*, Schuster 1992b (with doubt), Singh & Singh 2009.

Genus *Metzgeria* Raddi****M. dichotoma* (Sw.) Nees

REPORTS. — MARQUESAS. Jardin 1857.

NOTE

Metzgeria dichotoma is a neotropical species and the report from the Marquesas must be rejected as some other species.

Genus *Monoclea* Hook.****M. forsteri* Hook.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987 also as *Anthoceros forsteri*. — Tahiti. Nadeaud 1873 as *Anthoceros forsteri*, Bonner 1962b as *Anthoceros forsteri*, Miller *et al.* 1983 also as *Anthoceros forsteri* (with a '?').

NOTE

Monoclea forsteri is endemic to New Zealand and the report in Nadeaud (1873) must refer to some other species.

Genus *Mylia* Gray****M. taylorii* (Hook.) GrayREPORTS. — SOCIETY ISLANDS. Tahiti. Nadeaud 1873 as *Jungermannia taylorii*.

NOTE

Mylia taylorii is a Holarctic taxon and the report by Nadeaud from Tahiti must be rejected. Miller *et al.* (1983) rejects it as *Solenostoma micrantha*.

Genus *Plagiochila* (Dumort.) Dumort.****P. frondescens* (Nees) Lindenb.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Montagne 1848a, 1848b, Schiffner 1898, 1900, Schiffner & Stephani 1901, Swanson & Miller 1969, Inoue 1982, Miller *et al.* 1983, Piippo 1989a.

NOTE

Plagiochila frondescens is a SE Asiatic taxon and earlier reports from Tahiti was rejected by Inoue (1984).

*****P. neesiana* Lindenb.**

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Nadeaud 1873, Miller *et al.* 1983 (with a '?').

NOTE

Plagiochila neesiana is a Neotropical taxon and the reports from Tahiti must be rejected.

Genus *Podomitrium* Mitt.

******P. phyllanthus* (Hook.) Mitt.**

REPORTS. — SOCIETY ISLANDS. Tahiti. Montagne 1848a, 1848b both as *Steezia cladorrhizans* (with a '?'), Schiffner 1898 as *Hymenophyton phyllanthus*.

NOTE

Podomitrium phyllanthus is an Australasian taxon only reported with question marks from Tahiti. It should be rejected from Tahiti.

Genus *Porella* L.

******P. crispata* (Hook.) Trevis.**

REPORTS. — MARQUESAS. Jardin 1857 as *Madotheca crispata*. SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Jardin 1860 as *Madotheca crispata*, Miller *et al.* 1983 also as *Madotheca crispata*.

NOTE

Porella crispata is a Neotropical species that should be rejected from Tahiti.

******P. elegantula* (Mont.) E.A.Hodgs.**

REPORTS. — SOCIETY ISLANDS. Miller *et al.* 1983 as *Madotheca stangeri*, Whittier & Whittier 1987. — Tahiti. Mitten 1873 as *Madotheca stangeri*, Bescherelle 1898 as *Madotheca stangeri*, Miller *et al.* 1983 also as *Porella stangeri*.

NOTE

Porella elegantula was rejected as *Porella viridissima* from the Pacific by Hattori (1986c).

******P. subsquarrosa* (Nees & Mont.) Trevis.**

REPORTS. — SOCIETY ISLANDS. Tahiti. Ångström 1873 as *Madotheca subsquarrosa*, Nadeaud 1873 as *Madotheca subsquarrosa*, Bescherelle 1898 as *Madotheca subsquarrosa*, Miller *et al.* 1983 as *Madotheca subsquarrosa*.

NOTE

Porella subsquarrosa is a Neotropical taxon and the old reports from Tahiti should be rejected.

Genus *Radula* Dumort.

*****R. anceps* Sande Lac.**

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987 as *Radula apiculata*, Zhang 2003 as *Radula apiculata*. — Tahiti. Stephani 1884, 1910 both as *Radula apiculata*, Bescherelle 1898 as *Radula apiculata*, Castle 1961, 1968 both as *Radula apiculata*, Inoue & Miller 1965 as *Radula apiculata*, Kitagawa 1973, 1979 both as *Radula apiculata*, Hürlimann 1978 as *Radula apiculata*, Yamada 1979 as *Radula apiculata*, Miller *et al.* 1983 as *Radula apiculata*, Yamada & Piippo 1989 as *Radula apiculata*, Geissler & Bischler 1990 as *Radula apiculata*, Bapna & Kachroo 2000b as *Radula apiculata*.

NOTE

Radula anceps was rejected from the Pacific by So (2006).

******R. pallens* (Sw.) Nees ex Mont.**

REPORTS. — SOCIETY ISLANDS. Tahiti. Montagne 1845, Jardin 1860, Miller *et al.* 1983.

NOTE

Radula pallens is a Neotropical taxon and Miller *et al.* (1983) rejected it from Tahiti.

*****R. tabularis* Steph.**

REPORTS. — TUBUAI ISLANDS. Hodgson 1972, Miller *et al.* 1983.

NOTE

Radula tabularis was reported referring to Castle (1963) who did not mention it from the Pacific under any name.

Genus *Riccardia* Gray

******R. chamedryfolia* (With.) Grolle**

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987 as *Aneura pinnatifida*. — Tahiti. Nadeaud 1873 as *Aneura pinnatifida*, Miller *et al.* 1983 as *Aneura pinnatifida*.

NOTE

Miller *et al.* (1983) rejected *Riccardia chamaedryfolia* from Tahiti as misidentifications of other species.

******R. palmata* (Hedw.) Carruth.**

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Ångström 1873 as *Aneura palmata* β *laxa*, Bescherelle 1898 as *Aneura palmata* and *Aneura palmata* β *laxa*, Miller *et al.* 1983 as *A. palmata* var. *laxa*.

NOTE

Riccardia palmata is a Holarctic species and old reports from the Pacific should be rejected.

****R. poeppigiana* (Lehm. & Lindenb.)
Hässel ex Meenks & C. De Jong

REPORTS. — MARQUESAS. Jardin 1857 as *Metzgeria poeppigiana*.

NOTE

Riccardia poeppigiana is a Neotropical species that should be rejected from the Marquesas.

Genus *Schiffneriolejeunea* Verd.

****S. cumingiana* (Mont.) Gradst.

REPORTS. — MARQUESAS. Verdoorn 1934a, 1934b both as *Ptychocoleus cumingianus*, Tixier 1966, 1967b, 1972 all as *Ptychocoleus cumingianus*, Miller 1968 as *Ptychocoleus cumingianus*, Swanson & Miller 1969 as *Ptychocoleus cumingianus*, Bapna & Kachroo 2000b. — Nuku Hiua. Miller *et al.* 1983 also as *Lejeunea marquesiana*, *Ptychocoleus marquesanus* and *Acrolejeunea marquesana*.

SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Bescherelle 1898 as *Lejeunea cumingiana*, Verdoorn 1934a, 1934b both as *Ptychocoleus cumingianus*, Tixier 1966, 1967b, 1971 all as *Ptychocoleus cumingianus*, Miller 1968 as *Ptychocoleus cumingianus*, Swanson & Miller 1969 as *Ptychocoleus cumingianus*, Miller *et al.* 1983 also as *Lejeunea cumingiana* and *Ptychocoleus marquesanus*.

NOTE

All Pacific records of the rare Melanesian species *Schiffneriolejeunea cumingiana* are misidentified and should probably be referred to *Schiffneriolejeunea tumida* var. *haskarlana* (Gradstein & Terken 1981).

Genus *Schistochila* Dumort.

****S. berteriana* (Hook.) Steph.

REPORTS. — SOCIETY ISLANDS. Tahiti. Nadeaud 1873 as *Gottschea berteriana*.

NOTE

Schistochila berteriana is a S American taxon and the old report from Tahiti should be rejected.

Genus *Stictolejeunea* (Spruce) Schiffn.

****S. squamata* (Willd.) Schiffn.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Pearson 1924 (with doubt; referring to Gottsche *et al.* 1845 but they say Oiwaihi, not Tahiti), Miller *et al.* 1983.

NOTE

Stictolejeunea squamata is a Neotropical species.

Genus *Symbiezidium* Trevis.

****S. transversale* (Sw.) Trevis. var. *transversale*

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987 as *Lejeunea granulata*. — Tahiti. Montagne 1848a, 1848b both as *Lejeunea granulata*, Miller *et al.* 1983 as *Lejeunea granulata*.

NOTE

Symbiezidium transversale is a Neotropical species and all reports from the Pacific should be rejected.

Genus *Symphyogyna* Nees & Mont.

****S. hochstetteri* Nees & Mont.

REPORTS. — SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Nadeaud 1873, Miller *et al.* 1983.

NOTE

Symphyogyna hochstetteri is a southern species and the old report from Tahiti should be rejected.

Genus *Thysananthus* Lindenb.

****T. anguiformis* (Hook.f. & Taylor) Gottsche,
Lindenb. & Nees

REPORTS. — MARQUESAS. Jardin 1857.

SOCIETY ISLANDS. Whittier & Whittier 1987. — Tahiti. Jardin 1860, Miller *et al.* 1983 also as *Lejeunea ophiocéphala* and *Lejeunea anguiformis* (with a '?').

NOTE

Thysananthus anguiformis is endemic to New Zealand (Sukharak 2015).

****T. auriculatus* (Wilson & Hook.) Sukharak & Gradst.

REPORTS. — SOCIETY ISLANDS. Tahiti. Montagne 1848a, 1848b both as *Phragmicoma versicolor*, Reichardt 1870 as *Phragmicoma versicolor*, Bescherelle 1898 as *Lejeunea auriculata*, Singh *et al.* 2010 as *Mastigolejeunea auriculata*.

NOTE

According to Sukharak & Gradstein (2014b) all records of *Thysananthus auriculatus* from Asia and Oceania belong to *Thysananthus humilis*.

SYNONYMS

Acknowledgements

We are grateful to B. Mishler and E. Kraichak (University of California, Berkeley) for sending liverwort collections from Moorea for identification and for allowing publication of the new records in the checklist. We also thank P. Sukkharak for identifying *Mastigolejeunea* specimens from Moorea. The first author wishes to thank J. Y. Meyer (Research Department, Government of Tahiti) for these judicious remarks on particular geographical aspects. This work benefited from the support of the project MOVECLIM funded by the Agence Nationale de la Recherche, Conseil régional de la Réunion, Conseil régional de la Guadeloupe, Government of Azores, Government of Canarias, under the framework of a Net-Biome transnational first call.
