Preface & foreword	8
Contributions	9
Preamble by the authors	10
Acknowledgements	12

Part 1

GENERALITIES	15
French Guiana	16
A forest, forests	16
A well-protected territory?	16
A territory to explore!	18
Amphibians	18
Biogeography	20
The Neotropical region	20
Amazonia	23
The Guiana region	24
Systematics & biogeography of French Guiana's amphibians	27
Salamanders in Amazonia	28
Gymnophiona	28
Anurans	30
Diversification in Amazonia and community structuring in the Guiana region	32
Distribution patterns of French Guiana's amphibians	36
Modes of reproduction of French Guiana's amphibians	44
Oviposition in water with exotrophic tadpoles	46
Terrestrial or arboreal oviposition with exotrophic tadpoles	47
Endotrophic tadpoles and direct development	49
Viviparity	51
Explosive breeding	52
Reproduction in phytotelms	54
Predators of amphibians	56
Predators of adult amphibians	56
Defense strategies of adult amphibians	58
Predators of amphibian eggs and larvae	61
Protection of eggs and larvae	64
Threats & conservation	66
Tropical amphibians and climate change	66
Gold mining, a major threat to forest amphibians	68
Destruction of coastal habitats	69
Diseases	72
Trade in tropical amphibians	72
20 years of progress for the protection of French Guiana's amphibians	72
Species protection and conservation status	73

Part 2

SPECIES ACCOUNTS	75
Introduction to the species accounts	76
Family Bufonidae	82
<i>Amazophrynella</i> sp. 1	89
<i>Amazophrynella teko</i>	90
<i>Atelopus flavescens</i>	92
<i>Atelopus hoogmoedi</i>	94
<i>Rhaebo guttatus</i>	96

<i>Rhinella</i> cf. <i>margaritifera</i>	98
<i>Rhinella</i> <i>martyi</i>	100
<i>Rhinella</i> <i>lescurei</i>	102
<i>Rhinella</i> cf. <i>castaneotica</i>	104
<i>Rhinella</i> aff. <i>magnussoni</i>	106
<i>Rhinella</i> <i>merianae</i>	108
<i>Rhinella</i> <i>marina</i>	110
Family Allophrynidae	114
<i>Allophryne</i> <i>ruthveni</i>	116
Family Centrolenidae	118
<i>Hyalinobatrachium</i> <i>iaspidiense</i>	124
<i>Hyalinobatrachium</i> sp. 1	126
<i>Hyalinobatrachium</i> <i>cappellei</i>	128
<i>Hyalinobatrachium</i> <i>kawense</i>	130
<i>Hyalinobatrachium</i> <i>mondolfii</i>	132
<i>Hyalinobatrachium</i> <i>tricolor</i>	134
<i>Hyalinobatrachium</i> sp. 2	136
<i>Hyalinobatrachium</i> <i>taylori</i>	138
<i>Vitreorana</i> <i>ritae</i>	140
<i>Cochranella</i> <i>geijskesi</i>	142
<i>Teratohyla</i> cf. <i>midas</i>	144
Family Aromobatidae	146
<i>Allobates</i> cf. <i>femoralis</i>	150
<i>Allobates</i> <i>granti</i>	154
<i>Allobates</i> <i>ripicolus</i>	156
<i>Anomaloglossus</i> <i>baeobatrachus</i>	158
<i>Anomaloglossus</i> <i>mitaraka</i>	162
<i>Anomaloglossus</i> <i>blanci</i>	164
<i>Anomaloglossus</i> <i>degranvillei</i>	166
<i>Anomaloglossus</i> <i>dewynteri</i>	168
<i>Anomaloglossus</i> <i>surinamensis</i>	170
Family Dendrobatidae	172
<i>Ameerega</i> <i>hahneli</i>	176
<i>Dendrobates</i> <i>tinctorius</i>	178
<i>Ranitomeya</i> <i>variabilis</i>	182
Family Leptodactylidae	184
<i>Leptodactylus</i> <i>fuscus</i>	192
<i>Leptodactylus</i> <i>longirostris</i>	194
<i>Leptodactylus</i> <i>mystaceus</i>	196
<i>Leptodactylus</i> <i>guianensis</i>	198
<i>Leptodactylus</i> <i>macrosternum</i>	200
<i>Leptodactylus</i> cf. <i>petersii</i>	202
<i>Leptodactylus</i> <i>fremitus</i>	204
<i>Leptodactylus</i> <i>nesiotus</i>	206
<i>Leptodactylus</i> <i>intermedius</i>	208
<i>Leptodactylus</i> aff. <i>rhodomystax</i>	210
<i>Leptodactylus</i> aff. <i>stenodema</i>	212
<i>Leptodactylus</i> cf. <i>knudseni</i>	214
<i>Leptodactylus</i> <i>pentadactylus</i>	216
<i>Leptodactylus</i> cf. <i>myersi</i>	218
<i>Hydrolaetare</i> <i>schmidtii</i>	220
<i>Adenomera</i> cf. <i>andreae</i>	222

<i>Adenomera hylaedactyla</i>	224
<i>Adenomera heyeri</i>	226
<i>Lithodytes lineatus</i>	228
<i>Engystomops</i> sp. 1	230
<i>Physalaemus</i> cf. <i>ephippifer</i>	232
Family Hylidae	234
<i>Boana ornatissima</i>	258
<i>Boana</i> aff. <i>cinerascens</i>	260
<i>Boana punctata</i>	262
<i>Boana boans</i>	264
<i>Boana</i> aff. <i>semilineata</i>	266
<i>Boana diabolica</i>	268
<i>Boana xerophylla</i>	270
<i>Boana raniceps</i>	272
<i>Boana dentei</i>	274
<i>Boana calcarata</i>	276
<i>Boana courtoisae</i>	278
<i>Boana</i> cf. <i>multifasciata</i>	280
<i>Sphaenorhynchus lacteus</i>	282
<i>Scinax ruber</i>	284
<i>Scinax</i> sp. 3	288
<i>Scinax x-signatus</i>	290
<i>Scinax boesemani</i>	292
<i>Scinax</i> sp. 1	294
<i>Scinax</i> aff. <i>ruberoculatus</i>	296
<i>Scinax</i> cf. <i>nebulosus</i>	298
<i>Scinax proboscideus</i>	300
<i>Scinax jolyi</i>	302
<i>Pseudis paradoxa</i>	304
<i>Scarthyla goinorum</i>	306
<i>Dendropsophus</i> aff. <i>amicorum</i>	308
<i>Dendropsophus counani</i>	310
<i>Dendropsophus</i> aff. <i>melanargyreus</i>	312
<i>Dendropsophus leucophyllatus</i>	314
<i>Dendropsophus</i> cf. <i>mathiassoni</i> (sp. 1)	316
<i>Dendropsophus</i> cf. <i>minusculus</i>	318
<i>Dendropsophus gaucheri</i>	320
<i>Dendropsophus leali</i>	322
<i>Dendropsophus walfordi</i>	324
<i>Trachycephalus coriaceus</i>	326
<i>Trachycephalus typhonius</i>	330
<i>Trachycephalus hadroceph</i>	332
<i>Trachycephalus resinifictrix</i>	334
<i>Osteocephalus</i> cf. <i>taurinus</i>	338
<i>Osteocephalus oophagus</i>	340
<i>Osteocephalus</i> cf. <i>cabrerai</i>	342
<i>Osteocephalus helenae</i>	344
<i>Osteocephalus leprieurii</i>	346
Family Phyllomedusidae	348
<i>Phyllomedusa bicolor</i>	350
<i>Phyllomedusa</i> cf. <i>vaillantii</i>	354
<i>Callimedusa</i> cf. <i>tomopterna</i>	356
<i>Pithecopus hypochondrialis</i>	358
Family Ceratophryidae	360
<i>Ceratophrys cornuta</i>	362
Superfamily Brachycephaloidea	366
<i>Eleutherodactylus johnstonei</i>	370
<i>Pristimantis espedeus</i>	372

<i>Pristimantis crepitaculus</i>	374
<i>Pristimantis</i> cf. <i>grandoculis</i>	376
<i>Pristimantis inguinalis</i>	378
<i>Pristimantis chiastonotus</i>	380
<i>Pristimantis gutturalis</i>	382
<i>Pristimantis zeuctotylus</i>	384
<i>Pristimantis</i> aff. <i>pluvialis</i>	386
<i>Pristimantis</i> cf. <i>zimmermanae</i>	388
Family Microhylidae	390
<i>Ctenophryne geayi</i>	396
<i>Chiasmocleis shudikarensis</i>	398
<i>Chiasmocleis hudsoni</i>	400
<i>Chiasmocleis haddadi</i>	402
<i>Chiasmocleis jacki</i>	404
<i>Hamptophryne</i> cf. <i>boliviana</i>	406
<i>Elachistocleis surinamensis</i>	408
<i>Otophryne</i> aff. <i>robusta</i>	410
<i>Synapturanus</i> cf. <i>mirandaribeiroi</i>	412
<i>Synapturanus zombie</i>	414
Family Ranidae	416
<i>Lithobates palmipes</i>	418
Family Pipidae	420
<i>Pipa aspera</i>	422
<i>Pipa pipa</i>	424
<i>Pipa snethlageae</i>	426
Family Rhinatrematidae	428
<i>Rhinatrema bivittatum</i>	430
Family Caeciliidae	432
<i>Caecilia gracilis</i>	434
<i>Caecilia museugoeldi</i>	436
<i>Caecilia tentaculata</i>	438
Family Typhlonectidae	440
<i>Typhlonectes compressicauda</i>	442
<i>Potamotyphlus kaupii</i>	444
Family Siphonopidae	446
<i>Microcaecilia dermatophaga</i>	448
<i>Microcaecilia rochai</i>	450
<i>Microcaecilia unicolor</i>	452
