CORRIGENDUM

On page 158, under the Remarks paragraph, it should read (**in bold**):

“Among the collections Brongniart & Gris (1865: 180) mentioned in the protologue (*Pancher s.n.*, [collected in] 1862; *Vieillard 476*), Snow (Snow & Veldkamp 2010: 182) designated *Vieillard 462* as the lectotype” (“*Vieillard 476*” instead of “*Vieillard 462*”).

At the end of the same paragraph, p. 158, it should read (**in bold**):

“[...] but details of the collection on the blue label to the left also are in Pancher’s hand (and are nearly identical to those of **P00462908**), and since this specimen has four flowers, it is selected as the epitype” (“**P00462908**” instead of “P004652908”).
